DETAILED ACTION

Status of Application, Amendments, and/or Claims

The Preliminary Amendment of 14 January 2002 has been received and entered in full. Claims 1-11 are pending.

To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1647, Examiner Jon M. Lockard.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 11, drawn to proteins, polynucleotides, vectors, host cells, method of recombinantly producing protein, fusion proteins, and a method of screening compounds that stimulate/inhibit the function/level of polypeptide.

Group II, claim(s) 10, drawn to antibodies.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The proteins, polynucleotides, vectors, host cells, fusion proteins, and a method of screening compounds of Group I and the antibody of Group II are structurally and functionally different chemical compounds, each of which can be made or used without the other compound. Lack of unity is shown because these compounds lack a common utility which is based upon a common structural feature which has been identified as the basis for that common utility.

A telephone call was made to Anthony Zelano on 25 May 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1647

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
